

## PRODUCT SPECIFICATIONS

# Cushion Max™

### CONSTRUCTION

**Material:** Closed-cell nitrile/PVC-blended foam

**Thickness:** 5/8 inch (0.625")

### STANDARDS & TESTING

- Compression Deflection:
  - 49% at 20 psi
  - 65% at 40 psi
- Density ASTM D-1056 (6.5-8.5 lbs/cubic foot)
- Certified high-traction by the National Floor Safety Institute (NFSI)
- Passes water absorption ASTM D-1667 (maximum 0.1 lbs/foot<sup>2</sup>)
- Passes temperature ASTM D-1056:
  - Cold crack -20 F
  - High temp 200 F
- Passes flammability FMVSS302 - 0 burn rate
- Passes flammability standard DOC-FF1-70
- Passes tabor abrasion ASTM D-3884-01 (weight less than 0.9%)
- Passes ASTM G21-96 (2002)
